www.parkpoint.com

Park Point is located in Voyageurs National Park which is 219,000 acres of water and wilderness! We are proud to have owned and operated Park Point Resort for 26 years and wish to extend to you an invitation to experience what we enjoy so much! Fish, swim, explore or relax.

Welcome to Park Point Resort!

*Jack and Lynda
McMahon*

P.S. Come for coffee and rolls each morning in the office.

 Lake Kabetogama is 20 miles long and 6 miles wide. It lies in the center of Voyageurs National Park, a roadless park accessible only by boat or hiking trails. Its shoreline is rugged and irregular and is dotted with over 200 islands. This area provides plenty of opportunity for exploring, hiking, blueberry picking and watching the wildlife in their natural habitat. Deer, bear and moose roam freely and eagles can be sighted soaring above the tall pines.

For the birders, there are 95 species inhabiting the park including: osprey, pileated, black-backed and three-toed woodpeckers.

 Lake Kabetogama is great for fishing! Walleyes, northerns, smallmouth bass and crappies abound.

The Kabetogama peninsula is only minutes away by boat and offers largemouth and muskie fishing along with great hiking trails, blueberry picking and an ideal place to observe nature at its finest.

Voyageurs National Park offers many services and activities such as boat trips to Kettle Falls, island cruises, campfire programs, guided canoe trips and beaver pond walks. Visit the park's visitor center for more information.
